WHEN TO NOTIFY PARENTS AND CONTACT THE ELC HEALTH NURSE OR THE LOCAL HEALTH DEPARTMENT

When one or more children attending a child care setting are diagnosed with any of the following diseases, you need to contact your ELC nurse or the local health department.

- Amebiasis
- Bacterial Meningitis
- Campylobacteriosis
- Mumps
- Pertussis (Whooping Cough)
- Cryptosporidiosis
- Diphtheria
- E. coli 0157:H7
- Giardia
- Salmonellosis
- Hepatitis A
- Hepatitis B
- HIV (AIDS)
- Measles
- Polio
- Rubella
- Shigella
- Chickenpox (Varicella)
- Tuberculosis

It is essential to notify the health department or the ELC nurse immediately when a child in a child care setting has a serious infectious disease.
